Action taken by the Federation of Municipalities of Jezzine
to combat the Coronavirus COVID 19

1. Forming a crisis cell composed of the Head of the Union of Municipalities, representatives of the Region, The hospital in Jezzine, the Ministry of health local representative, the Lebanese Red Cross, and setting an action plan and measures to combat the Coronavirus.

The tasks of the crisis cell are to follow up on preventive and awareness-raising measures, supervise the quantities of foodstuffs, medicines, and fuel, activate and make public phone numbers and means of communication with the operations center, securing the needs of the old and the sick people and provide Medicines and supplies to their homes, Follow up on fundraising and Equip a quarantine center.

2- Cleaning and sterilizing the roads and commercial shops by the workers of the towns of the Federation.

3- Awareness campaigns, patrols, and barriers realized by the Union Police in all towns and villages through the use of specialized audio devices.

4- Issuing notes to control the movement of the Syrian displaced and accept volunteers to help municipalities in the region.

5- Closing internal roads, imposing a curfew, and following the circulars of the Ministry of Interior and Municipalities and the Council of Ministers.
6- Holding regular meetings of the crisis cell to follow up on the work progress in the region and deal with the developments resulting from the Coronavirus.

7- Realizing Awareness campaigns in cooperation with the Lebanese Red Cross and conducting training courses for municipal employees (administrative and police) to inform them on the way of the intervention of the Disaster and Risk Reduction Unit of the ambulance and emergency sector in the Lebanese Red Cross.

8- Coordination and permanent cooperation with the Ministry of Health, which conducted about 400 PCR TEST exams in the Jezzine region and accepted grants for the hospital and Red cross and to manage the quarantine center in the event of a spread of the virus.

9 - Permanent coordination with all security, health, and military agencies at the judicial and provincial levels.

10- Connecting the crisis cell in the Jezzine area to a central operations room (crisis cell) in South Lebanon Governorate.

11- Develop a plan to combat and treat the Corona epidemic, which includes treatment of the epidemic in all its phases

12- Follow up on suspicious cases and cases coming from abroad on a daily basis.

13- Upload almost daily data on the actual state of the Corona in the Jezzine region on social media.
